

# Specifications and Models of 47U Power Storage Cabinet for Charging Piles

## Overview

---

Dimensions: 42/47U 600 or 800x1000/1100/1200 mm • Ready for cold / hot corridor containment. • Ample variety of accessories. But you need to build a good house for your active and passive equipments. feature of Cabinets • IP20 protection level for cooling performance. • Heavy. The Vertiv™ EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they provide 10–15 years of reliable performance in a smaller footprint than VRLA batteries. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services. Its core innovation lies in the integration of an electrical fire-proof current-limiting protector, which solves industry pain points such as delayed.

## Specifications and Models of 47U Power Storage Cabinet for Charging

---

### Special power distribution cabinet for charging piles

Fully compliant with mandatory protection standards for terminal circuits in charging applications, the XL-21 ensures maximum safety and reliability. Tailored for optimal performance, it's the ideal choice for ...

### Cabinets feature of Cabinets

- o IP20 protection level for cooling performance.
- o %80 perforated front/rear doors for best air circulation.
- o Easy move 19" rails while loaded.
- o Curved door for free space for front cabling.
- o Heavy duty ...
