

Specifications and dimensions of photovoltaic panel crane

Overview

5-meter cargo box, our truck crane can accommodate up to four standard European pallets, making it a versatile asset for transporting a wide range of materials, especially solar panels and other components used in the photovoltaic sector. Equipped with a spacious 3. Operator must refer to in-cab Crane Rating Manual and Operator's Manual to determine allowable crane lifting capacities and assembly and operating procedures. All movements can be done at the same time. The hydraulic system is load sensor valve control system, the main pump is double variable pump, main valve is 6 series M7 valve. Hydraulic oil tank capacity: 1750L the dynamic performance is much. Performance parameters and dimensions of electric chain hoist: See the attached electric hoist "Operation and Maintenance Manual". The electric chain hoist has the function of. GEDA USA's is a leading solar panel lift distributor offering original Solarlift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels.
