

Specifications for photovoltaic panel floor installation racks

Overview

Videos, data sheets, specifications, and installation manuals for ISA solar racking and mounting systems. Installation by Solar Foundations USA®, Inc. The project drawings are unique to each job site and are based on client specifications. It may supersede this installation manual. In the event of a conflict between this manual and any code, the installer shall contact Solar Foundations USA® supplied/specified. The IR-30 is one of the most universal solar module ground mounting systems ever developed, and it was specifically designed to rack solar modules of any size, even 800 Watt jumbo size solar panels are no match for the IR-30 Racking System. The IronRidge® Ground Mount System combines our XR100® or XR1000® Rails with locally-sourced steel pipes or mechanical tubing, to create a cost-effective structure capable of handling any site or terrain challenge. Installation is simple with only a few structural components and no drilling. The purpose of this manual is to provide installation instructions to the field installer of a PowerField solar array when using our patented PowerRack. The “PowerRack” is a mounting system suitable for any size of PV ballasted solar arrays.

SunRack PV Mounting System manual-2

Installation and removal are very simple and fast, 1-2 people can complete the installation. The system is all bolted and fixed, eliminating the need for welding and drilling during installation.
