

Supercapacitor high voltage module price

Overview

Ultracapacitors currently have a higher cost per kilowatt-hour (kWh) compared to traditional batteries. This is substantially higher than Lithium-ion batteries (around \$180/kWh) or Lead Acid batteries. Eaton Electronics HSH Hybrid Supercapacitors are high-reliability, high-power, ultra-high capacitance energy storage devices utilizing proprietary materials and processes. These modules consist of interconnected cells, often in series and parallel configurations. Projections indicate a compound annual growth rate (CAGR) of around 15-20% over the next five years, driven by increasing demand across renewable energy, electric. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 14 % may be applied if shipping to the United States. The 162V62F module cutting-edge design enables high reliability and durability to demanding power and energy requirements for grid and industrial applications.

Supercapacitor high voltage module price

High Voltage Supercapacitor: Ultimate Energy Storage Solution

Need high voltage supercapacitor for industrial power systems? Discover top-rated, durable ultracapacitors with rapid charge/discharge. Click to explore advanced energy storage ...

DETAILS AND PACKAGING

- 1 USER MANUAL PDF
- 2 RJ45 Cable For RS485/CAN
- 3 Battery in Parallel Cables
- 4 RJ45 TO USB Monitor Cable
- 5 M8 Terminal*4

Supercapacitor modules , higher voltage and increased capacity , Eaton

It explains key calculations for sizing a supercapacitor, showcases Eaton's cylindrical cells and modules, and highlights real-world benefits like high cycle life, eco-friendly backup power, and easy integration.
