

Suspended bracket in front of solar panel

Overview

This type of bracket is designed to be installed flush against a surface such as a roof or a wall. If you're looking to install solar panels on your rooftop with ease, the Solar Panel Mounting Brackets and Clamps Kit is your best choice. This kit accommodates various sizes and supports mounting up to four solar panels side by side. The lightweight aluminum and stainless steel components secure the panels just above the highest obstruction on the roof and allow for full roof access through the incorporated. At its core, a solar mounting system is the supporting framework that secures solar panels to a surface, whether it's a rooftop or the ground. But its job is far more complex than just holding things in place.
