

# Taipei energy storage solar power generation project

## Overview

---

The project is a critical component of HEXA Renewables' initiative to advance solar-plus-storage solutions, which are essential for ensuring grid stability and providing reliable power from intermittent renewable sources. With a total capacity of 48MW/185. HEXA Renewables, an international renewable energy platform. Taiwanese battery integrator Recharge Power Co has been contracted to install a solar park with a co-located 48-MW/185. 7 MWh battery. Carbon-free capture, utilization electric Vehicles & storage (CCUS) planning such as energy storage requirements to respond to variety in renewable energy.
