

Tanzania florida microgrids

Home Energy Storage (Stackble system)

High Efficiency

Easy installation

Safe and Reliable

Perfect
Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem

- LFP battery, safest and long cycle life
- Stackable design, effortlessly installation
- Capable of High-Powered
- Emergency-Backup and Off-Grid Function

Overview

Rural energy poverty persists in Tanzania, with 77% of the population not having access to electricity. A combination of high solar radiation and slow extension of the national energy grid has raised off-grid solar.
