

The base station can't provide power

Overview

Model often shows 'Base no power' due to power adapter issues or loose base unit connections. Inspect the power. The error message states "base no power. Do you have any suggestions?

Residential and commercial systems. Your satisfaction is. So far I have tried several methods to "reinstall" the USB (including BT) drivers related to Vive HMD and Linkbox, even though I never had reports of any problem with them, by using: Using "Device Manager" in Windows to remove HTC Vive BT device. With the base station unpowered, connect via a micro-B USB cable to your PC. The cause for this is either: Check charge level of the battery or Check that batteries are properly attached and attach, insert or reinsert the batteries. So I am supposed to connect the biofuel reactor to the power grid at the moment and that is exactly what i did.

The base station can t provide power

Troubleshooting No Power at Base Unit , Expert Q& A

This symptom can indicate either a problem with the line (phone company equipment or the wiring in your home) OR a hardware failure in the base station (since the issue happens with all handsets).
