

The first brand of mobile energy storage and charging equipment

Overview

NOMAD is the first entrant into the mobile lithium-ion energy storage space and combines its patent-pending, over-the-road storage units with a standardized docking platform capable of interconnection with any distribution or transmission utility. “Our Mobile EV Charging Business is Trusted by Fleet Operators Across Europe and the Middle East” “Our Mobile EV Charging Business is Trusted by Fleet Operators Across 1. First-mover advantage in globalization: As the world's earliest exporter of mobile energy storage charging products, we serve. Among the company's products are phone chargers, car chargers, power banks, earbuds, headphones, speakers, data hubs, 3D printers, charging cables, torches (flashlights), screen protectors, portable power stations, home solar batteries, and smart home devices. We combine state-of-the-art. Developed in partnership with NOMAD Transportable Power Solutions, Inc. (NOMAD), the leading domestic manufacturer of zero-emission, utility-scale mobile energy storage, Pioneer's Zero Emission e-Boost (“ZEeB”) and EXZELCR platforms set a new bar in meeting the growing demand for low-carbon. The Charge Qube is a revolutionary rapidly deployable Mobile Battery Energy Storage System and Mobile Electric Vehicle Supply Equipment (Type-2 or CCS) designed to meet the diverse and demanding needs of businesses, fleets, and infrastructure projects. Traditional solutions, such as diesel generators, are costly, polluting, and.
