

The largest photovoltaic panel company in China

Overview

JinkoSolar is one of the largest solar panels manufacturer in China and is known to build a vertically integrated solar PV module chain with 12 global production facilities and 22 overseas subsidiaries in various countries. According to Mordor Intelligence, the solar panel market is projected to grow at a compound annual growth rate (CAGR) of over 6.5% between 2023 and 2028, with China maintaining its position as the world's largest producer and exporter of solar panels. However, the industry in 2026 is navigating a transformative phase. As the world's leading producer, China commands over 95% of the global market for key components such as polysilicon, ingots, and. China's massive solar panel factories are key players, and knowing which are the biggest is crucial.
