

The latest news on wind power in Japan s communication base stations

Overview

Japanese utility Electric Power Development Co Ltd (TYO:9513), or J-POWER, announced today it has signed a virtual power purchase agreement (VPPA) with telecommunications operator KDDI Corp (TYO:9433) that will support the construction of a 51.5-megawatt (MW) onshore wind farm in Kaminokuni-cho, Hokkaido. Under the terms of the PPA, KDDI will receive the. FebruWith the ruling coalition poised for a major victory in the Feb. While Japan's government increasingly considers wind energy a viable option, the progress is still sluggish. Accelerating it requires addressing various administrative burdens and introducing more ambitious policies.
