

# The price of new solar panels

## Overview

---

Based on our 2025 survey of 1,000 solar customers, the national average price for a single solar panel professionally installed is \$1,200. This means most full-size systems of between 20 and 30 panels cost between \$24,000 and \$36,000. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. The cost of installing solar is far less intimidating when you understand the various components, how savings are generated, and different ways to lower your cash outlay through financing. While that price tag seems steep, the electricity bill savings you get from solar panels make them a worthwhile investment for most Americans.
