

Three wind power storage projects in Bulgaria

Overview

The government has set aside BGN 107.5 million for projects over 2 MW. The first group contracted 435 MW of generating capacity and 176 MW of storage, while the second group secured 2. Yet despite the country's resource potential, developers warn that bureaucracy and organised. Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount. 15 billion levs (\$675 million) under its. Under two calls in Bulgaria, developers of 249 projects will receive EUR 268 million in total state aid. The Bulgarian Ministry of Energy has announced the final results of the country's first renewable energy auction. This way we will contribute to the supply of affordable green energy, an accelerated replacement of expensive polluting power plants, improved quality of life, and enhanced energy independence. Under the RESTORE initiative, launched through Bulgaria's National Recovery.
