

# Total investment of microgrid demonstration project

## Overview

---

What is needed urgently now are 10 to 15 demonstration projects that will test and prove these effective business models. Electrifying buildings and transportation and shifts to renewable energy are expected to. The California Energy Commission's Energy Research and Development Division supports energy research and development programs to spur innovation in energy efficiency, renewable energy and advanced clean generation, energy-related environmental protection, energy transmission and distribution and. Value Streams - Breakdown of value streams possible for microgrid with optimized profile. Department of Energy (DOE) under Contract No. Walnut Grove represents the future of renewables by combining the latest cutting edge solar technology with DC coupled battery storage and provides the opportunity for exploration of how.
