Delivery

ONE-STOP SOLUTION

65kWh 30kW

130kWh 30kW

130kWh 60kW

Overview

Flo is a Ukrainian energy storage technology company headquartered in Kyiv, Ukraine, developing innovative iron flow batteries for commercial, industrial, and utility applications. Utilizing iron salts in liquid electrolytes, their sustainable technology offers efficient, long-duration storage. With 78 years of combined expertise, R. VRB-ESS® batteries are best suited for solar photovoltaic integration onto utility grids and industrial sites, as Global R&D is fueling the development of flow battery chemistry by significantly enabling higher energy density electrodes and also extending flow battery applications. For example, Pacific Northwest National Laboratory's (PNNL) redox flow laboratories conduct fundamental research and test. Through the Big Data & Artificial Intelligence (AI)-powered StartUs Insights Discovery Platform, covering over 9M+ startups, 20K+ technology trends, plus 150M+ patents, news articles & market reports, we identified top flow battery startups. Since 1998, LLC ADS produces the accumulator batteries for electric forklifts, communications equipment, electric power engineering, rail transport, and rail.

Ukrainian liquid flow battery manufacturer

UKRAINIAN LITHIUM CORPORATION

ULC is a company that is working on Ukraine's first Gigafactory to meet the demand for battery cells for various EV and heavy-duty applications.
