Overview

The Barbados National Energy Company Ltd. (BNECL), in partnership with the Inter-American Development Bank (IDB), is leading the installation of 10 MW of Battery Energy Storage Systems (BESS) across the island. This revolutionary policy will see the transformation of Barbados from a petroleum based economy to the first green, 100% renewable energy and carbon neutral island state in the world. In. This first tranche of the competitive procurement process aims to deploy 60 MW (240MWh) of new Battery Energy Storage Systems (BESS) in Barbados, aiming to unlock renewable energy (RE) access to the grid, improve grid stability, allow better demand management, and mitigate supply interruptions. BRIDGETOWN, Barbados – Barbados has launched the second phase of the competitive procurement process for Battery Energy Storage Systems (BESS), which brings the island closer to unlocking the grid and allowing for the further onboarding of renewable energy.

What is Barbados latest energy storage policy

Barbados opens second phase of battery storage project to unlock grid

Barbados has launched the second phase of its Battery Energy Storage System (BESS) procurement process, a critical step in tackling ongoing grid congestion that has stalled the growth of the ...
