

What to do when the energy storage battery pack is put into the box

Overview

◆ The battery needs to be recharged within 12 hours after fully discharging. ◆ Do not use cleaning solvents to clean the battery. Proper maintenance and storage of battery packs are critical to ensure their longevity, performance, and safety. ◆ I plan to put a bank of 100-200 cells outdoor in a large metal waterproof box. Are there any issues with the LIFEPO4 that require venting?

can I put in a Water/Airtight configuration?

I need figure out whether I need plan put vents on the box holding the batteries or not. You must not let LIP get. 1 Safety Information Statement Before transporting, storing, installing, operating, using, and/or maintaining the equipment, read this document, strictly follow the instructions provided herein, and follow all the safety instructions on the equipment and in this document.
