

Where is the energy battery cabinet at the cote d ivoire site

Overview

Boundiali, a city of around 40,000 in the north of Côte d'Ivoire, will soon be home to the country's first solar power plant. It will produce clean electricity for around 30,000 households, avoid the emission of 27,000 tonnes of CO₂, and will help create 300 jobs in the region. Paris, May 11th 2022 - Saft, a subsidiary of TotalEnergies, has won a major contract from Eiffage Energie Systèmes to deliver a 10 MW energy storage system (ESS) that will ensure smooth grid integration for the Boundiali solar photovoltaic (PV) power plant. 5MWp solar PV power plant in Côte d'Ivoire (Ivory Coast). The Boundiali solar PV plant is built at a cost of €40 million, and the financing agreements were signed in 2019. It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV. A family in northern Côte d'Ivoire finally has stable electricity to run their small bakery after years of relying on smoky diesel generators. Large energy storage cabinets offer: 1. Mining & Manufacturing Backup "A single power outage can cost \$250,000/hour in lost production," notes Abidjan-based plant manager Koffi Adjo. The fully-integrated lithium-ion ESS will comprise six Saft Intensium Max High Energy containers, providing a total of 13.
