

# Wind-solar-energy-storage project in Spain

## Overview

---

An Energía Estratégica report identifies more than 3 GW of solar, wind and battery storage projects in Spain, highlighting investment opportunities amid regulatory and grid constraints. With an investment of US\$310 million, the project will add a total PV capacity of 225MW alongside 220MWh of. Spain is leading Europe's clean energy push with major solar, wind, and green hydrogen projects. Explore how policy and investment are driving renewable growth. It includes pumped hydro, thermal energy storage, and battery systems.
