

# Zambia Power Storage Project

## Overview

---

Government endorses EPC agreement for 50 MW solar and battery storage project in Luapula Province. Investment strengthens private sector participation in Zambia's power sector. Battery supported generation to improve grid stability and regional electricity supply. Zambia has taken a further step. Arlington, VA - Today, the U. The project will help facilitate the integration. A devastating drought in 2023-2024 all but crippled Zambia's power sector, draining rivers and reservoirs and cutting generation to 1 680 megawatts against demand of 2 400 MW. Households were left in the dark, industries slowed and the risks of relying on hydropower for more than 80% of electricity. J- Deep in Southern Zambia, the town of Choma is now home to a groundbreaking clean energy project. Who Cares About Battery. Zambia inaugurated a 20 MW solar photovoltaic plant in Lusaka to diversify its power mix amid climate-driven hydropower constraints. Kiyona Energy, a ZESCO subsidiary, developed the project and will allocate 2 MW directly to the Natural Resources Development College.

## Zambia Power Storage Project

### Zambia: Choma Solar, first 60 MW solar + battery storage plant

J- Deep in Southern Zambia, the town of Choma is now home to a groundbreaking clean energy project. The newly inaugurated Choma Solar plant, combining 60 MW of solar capacity with ...
