

Zhiguang main control cabinet energy storage power station

Zhiguang main control cabinet energy storage power station

Zhiguang High Voltage Energy Storage System

With the large-scale application of energy storage technology, the demand for power storage with large capacity and high voltage is expected to increase in future.

Zhiguang Electric

At the New Product Launch, Liu Mancang, Solution Manager at Zhiguang Energy Storage, introduced the grid-forming cascaded high-voltage large-capacity energy storage system.

Zhiguang Electric

This system seamlessly integrates with photovoltaic power generation, creating a robust grid-tied solar energy storage solution. It is ideal for on-grid and off-grid solar energy storage, backup power supply, ...

Zhiguang Electric, high-voltage cascading energy storage + virtual

In July 2022, Zhiguang Electric launched the cascaded 35kV high-voltage direct-mounted large-capacity energy storage system for the first time. The single-unit capacity is far ahead of its ...

High-Voltage Energy Storage System Overview

The cascaded high-voltage energy storage system can be directly connected to the grid without going through boosting transformer, with voltage levels ranging from 6kV to 35kV.

Zhiguang Energy Storage Unveils 35kV High-Capacity Grid-Forming

Zhiguang's 35kV high-voltage direct-connect energy storage system adopts a cascaded topology, in which multiple battery clusters are directly connected and stepped up to 35kV--eliminating the need ...
